EXECUTIVE DIRECTOR

Here we are in the month of May which puts us at almost the end of the first half of the year and thus far, our wish is that all of our residents are enjoying themselves and have received the value we work to share with each of you. I understand that our BHU classes have been well-received and you are gaining more knowledge about maintaining the quality life you can. We will continue to provide an opportunity for all of our residents to participate in a variety of activities. One of our goals is that we provide an environment which you will see as an adventure, a positive one filled with fun and growth.
